

## **International Conclave on Futuristic Education: Ensuring Education for all.**

### **CONCEPT NOTE:**

Constant Societal and Environmental changes are affecting education in revolutionary ways, and the momentum towards these changes is irreversible. Making education stimulating and rational is the goal of the education bodies in all the nations across the globe. For this to happen, our educational institution adopts and makes arrangements for the teachers to learn and be part of all the latest developments in the field of education, which in turn would benefit the students and encourage them to update themselves in improving the skills by receiving quality education but before that it is imperative for all of us to ensure that each and every child in the world has access to education. To address this concern and to provide sustainable solutions, an **“International Conclave on Futuristic Education: Ensuring Education for all”** is being organized by Chandigarh University on 2<sup>nd</sup> September 2021 through virtual mode.

The main objective of this conclave is to uphold the Sustainable Development Goal-4 “Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all” established by the United Nations in September 2015.

### **The following expert panelist will be joining us for this conclave to share their thoughts and opinions about the theme:**

- 1.** Prof. Anantha Duraiappah, Director, UNESCO - Mahatma Gandhi Institute of Education for Peace and Sustainable development (MGIEP), the first UNESCO category 1 Institute of Education in the Asia Pacific
- 2.** Prof. Anil Sahasrabudhe, Chairman- All India Council for Technical Education (AICTE).
- 3.** Padma Shri Prof. J S Rajput, India’s Representative to Executive Board of UNESCO and Chairperson, Governing Board, UNESCO MGIEP, Former Director-NCERT
