BRAIN TWISTER

Task

An innovative approach to quizzing which will be dedicated towards unravelling the realms of knowledge in the **computer applications**. This competition will be open to all undergraduates and postgraduates of engineering and non engineering students.

Event Rules

- Maximum 4 students are allowed per team.

For Round 1 :- {MCQ's & Q-Cards}

- The team giving answer before the completion of question will be disqualified.
- Passing a question is allowed to every next team only.
- Maximum time for discussing & answering a question will be One minute only.
- NO two teams can discuss about question.
- Ten questions will be asked to each team & each question carries two marks. If question is passed & answered by next team then the points will be added to answering team but that question will not be counted in their ten questions.
- Top five teams will be selected for round 2.

For round 2 :- {Visualization}

- The team giving answer before the completion of question will be disqualified.
- Passing a question is not allowed.
- The team who visualize the correct will be asked four questions & they have to answer those questions to become winning team.
- Top three teams will be selected for round 3 (Quick Fire Round).

For Round 3 (Quick Fire Round) :-

- The team giving answer before the completion of question will be disqualified.
- Passing a question is not allowed.
- A few questions will be asked from each team in two Minutes.
- Team with maximum score will be declared as winning team.

Judging Criteria

In each round, score will be given for each correct answer and the team having maximum score will be the winner for respective round.
