

ESCAPE CHALLENGE - II

Task

Escape Challenge-II is a treasure hunt game about technical activities, mental challenges, physical games and a fun. It is a complete entertainment and adventure of brilliant minds.....!

Arena

The arena consists of different tasks which includes various activities in the main ground in front of Block - 6. Participants will enter the arena where different tasks will be there. Participants will be given a clue on the basis of which they will move on to the first task. To move on to the next task they will be given another clue from the first task. For every task (if cleared) participant has to find a coin. Participants have to solve the maximum tasks in a limited period of time and on the basis of maximum value of coins, winners will be declared.

Event Rules

1. Registration of the participating teams will be done till March 15, 2017.
2. Team will consist of only two members from the same institution.
3. Participants need to check the webpage after March 15, 2016 regularly for the updates related to the challenges.
4. Participants must wear the comfortable outfit to perform physical tasks in the ground.
5. Teams must stay together during the game and are encouraged to work together to solve the tasks and retrieve the coins from each task.

**CHANDIGARH
UNIVERSITY**

Discover. Learn. Empower.

6. *Each task once solved will lead you to a location where you will be able to collect a "Coin". Coin values will be determined based on the difficulty of the task.*
7. *Teams will be scored on the total value of the coins collected and the amount of time taken. Once all coins are collected teams must return to the finish in order to be counted as finished.*
8. *For any queries, write to us at escapechallenge40@gmail.com*
9. *Disqualification will result from any of the following*
 - *Damaging any property*
 - *Interfering with other teams or their members in any way*

Judging Criteria

Teams will be scored on the total value of the coins collected and the amount of time taken. Once all coins are collected teams must return to the finish in order to be counted as finished. The highest total of the collected coins and the minimum time taken by the team will be the winning team. In case of tie ups, tiebreaker (single task) will be done.
