

RENEWABLE ENERGY CONTEST

Task

Energy Contest is a scientific technical activity, where students (or a team) will present their ideas to conserve the energy that is usually wasted during every day routine of the young and energetic kids.

Arena

Without Energy there would be nothing. But there are problems with energy. Some people use it far too much than required, that means there is not enough for everyone. And using some kinds of energy causes terrible pollution. People have come up with renewable energy.

- Can we think of alternate ways to create a clean energy?
- Can we utilize the energy that is usually wasted during kids play?

Event Rules

1. Registration of the participating teams will be done till March, 2017.
2. Interested ones , Kindly mail us your details (Name of the institution and Name of the team members) at (renewableenergycontest@gmail.com)
3. Participants must ensure that mail should be sent from a valid email id as all the updates will be sent to you on that email only.

**CHANDIGARH
UNIVERSITY**

Discover. Learn. Empower.

4. *Team will consist of only two members from the same institution.*
