

Type of Event: Workshop

Name of the Event: Workshop on Microsoft Azure - Providing Affordable Access to Technology

Coordinator's Name and contact Details: Priyanka Bhardwaj, Phone - 8950022224, email ID- priyankabhartwaj.uic@cumail.in

Student Coordinator

1. Rishab Mahajan - 19MCA1008- 19mca1008@cuchd.in- 9877708756
2. Apurva Pathak- 19MCA1022- 19mca1002@cuchd.in- 8198046622
3. Akanksha Kheri- 19MCA1021- 19mca1021@cuchd.in- 8318147152

About the workshop:

Azure is a cloud computing platform and an online portal that allows you to access and manage cloud services and resources provided by Microsoft. These services and resources include storing your data and transforming it, depending on your requirements. To get access to these resources and services, all you need to have is an active internet connection and the ability to connect to the Azure portal. It was launched on February 1, 2010, significantly later than its main competitor, AWS. It's free to start and follows a pay-per-use model, which means you pay only for the services you opt for. Taking the influence of Cloud Computing into consideration, a Workshop on “**Microsoft Azure**” is being organized as a part of **TechInvent-2021**, by the Department of Computer Applications. This workshop will provide a platform for knowledge sharing and learning to all the members to develop their skills in Microsoft Azure. The objective of Microsoft Azure is to provide various different kinds of services to the cloud consumers. This workshop creates a path to understand the concept and implication of technology in the context of Cloud Computing and using the services in a real-time scenario.

Objective of the workshop:

- This workshop will help students, academicians and researchers to develop an understanding on Cloud Computing.
- This workshop will help students to know about the job opportunities in the field of Microsoft Azure.
- Make the participants aware about the exciting opportunities that technology has been creating in the field of Cloud Computing.
- Make students aware how Cloud Computing has been impacting the people working in the respective fields.
- To enable students and other participants with Microsoft Azure skills for better career options.

Outcome of Workshop:

- The real-world implementation of technology
- Make students aware how technology has been impacting the people working in the respective fields.

- To enable students and other participants with technical skills for better career options.

Benefits of the workshops:

1. Certificate of participation.

Schedule: 3rd Sept, 2021

Duration: 1 Day

Expert

Nitin pandit, Solutions Consultant at Infragistics , Founder of Tutoriallink.com

Topics for Workshop

Cloud Computing and Microsoft Azure.

Azure Cosmos DB

Distribute the Web Load with Azure Load Balancer

Know more about Azure Cognitive Services (Brings AI within reach of every developer without requiring machine learning expertise.

No Code Low Code

Registration Process

- The google form link will be shared for the participants to register for the workshop including details like Name, Designation, Present Organization, Place.
- At the end of the workshop participants are required to fill the feedback form for the betterment and learning.
- Filling the feedback form will be compulsory for the candidates to receive the workshop certificates.
